

## **Cross-border funding in Europe and beyond**

### **WEAVE webinar on 22 September 2023**

Brussels, 29.08.2023

---

ISE is pleased to announce its WEAVE webinar to be held online on the 22 September from 2 to 3 P.M. CET.

Christophe Baerenreuter (FWF / Austria), the current chair of the WEAVE network, will provide a general presentation of WEAVE. Myriam Poll (DFG / Germany) and Helena Burg (FNR Luxemburg) will join him to answer your questions. Together, they represent a broad range of science disciplines, well suited to engage with the ISE members.

**To help us prepare the seminar, pls confirm your participation by email to [monica.dietl@initiative-se.eu](mailto:monica.dietl@initiative-se.eu) and cc [sofia.ciravegna@epsomail.org](mailto:sofia.ciravegna@epsomail.org) , best by 11 September 2023** and send your name, to which [ISE member organisation](#) you belong and your email address.

**Weave** is a bottom-up, cross-European initiative developed by European research funders organised in [Science Europe](#) to support excellent collaborative research projects across borders.

It aims to simplify the submission and selection procedures of collaborative research proposals that involve researchers from up to three European countries or regions. Proposals go through a single evaluation procedure followed by coordinated but autonomous decision processes of the involved [funding organisations](#).

Weave currently comprises national and regional research funders from 11 European countries: AT, BE, Croatia, CZ, DE, LUX, NO, PL, SV, SE and CH.

More information can be found in the attached mini-brief.

Looking forward to discussing with you in the webinar!

Monica Dietl, ISE Coordinator

Karin Metzclaff, EPSO Executive Director & ISE chair Horizon Europe WG
